Contoh form registrasi

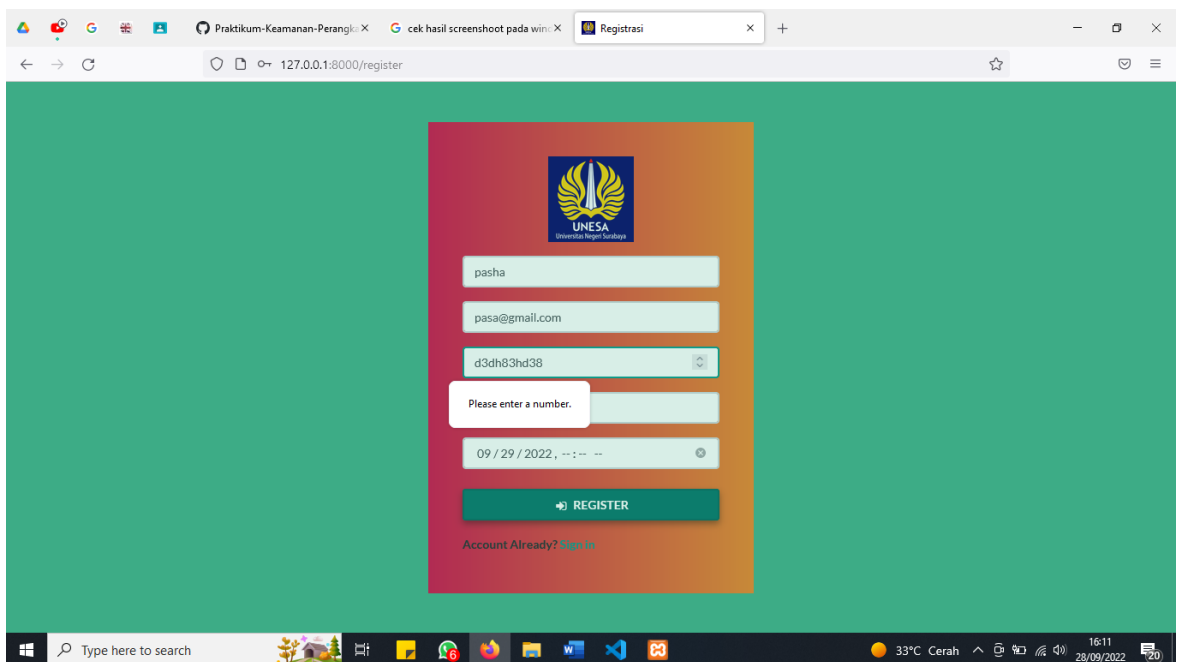

The screenshot shows a web browser window with the address bar displaying "127.0.0.1:8000/register". The page features a registration form for UNESA (Universitas Negeri Surabaya). The form is set against a vertical gradient background of pink and orange. It includes the following elements:

- UNESA logo at the top center.
- Input fields for "Username", "Email", "Enter No Hp", "Password", and a date/time field labeled "mm / dd / yyyy, --:-- --".
- A teal "REGISTER" button with a right-pointing arrow icon.
- A link "Account Already? Sign In" below the button.

Form tidak boleh kosong

Gunakan combo untuk membatasi isian data agar pengguna tidak mengisi data lain

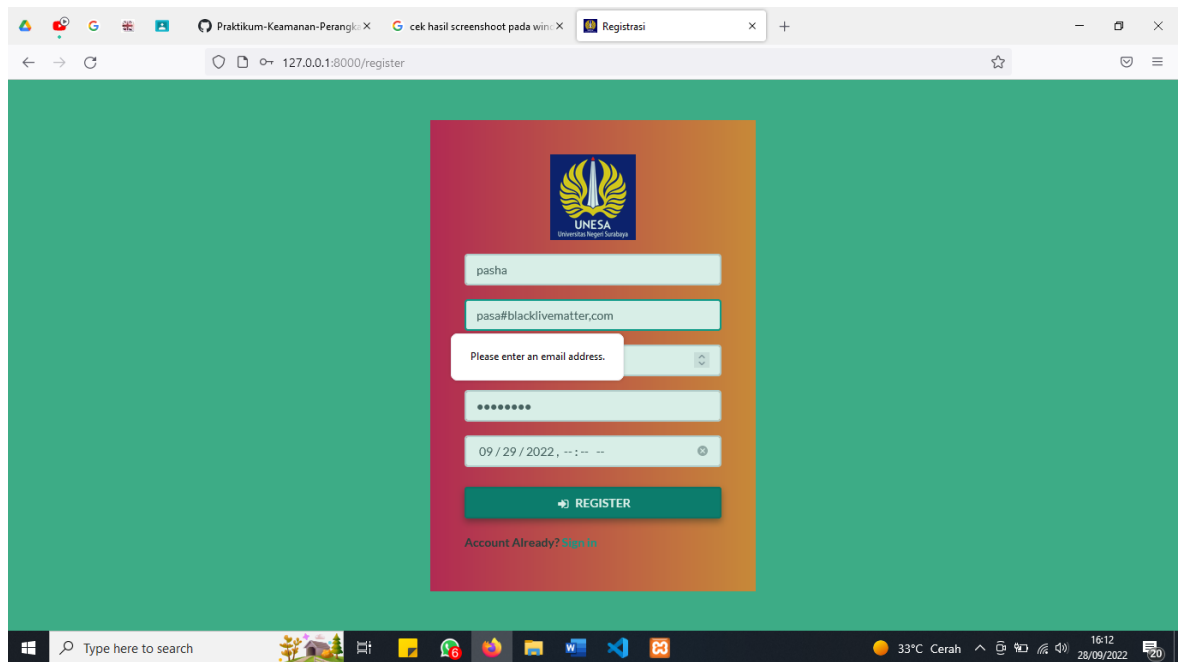

DateTime Ticker untuk isian data dalam bentuk tanggal dan waktu

The image shows a web browser window with the address bar displaying "127.0.0.1:8000/register". The page features a registration form for UNESA (Universitas Negeri Surabaya). The form is set against a green background with a central orange and red gradient box. The form fields are as follows:

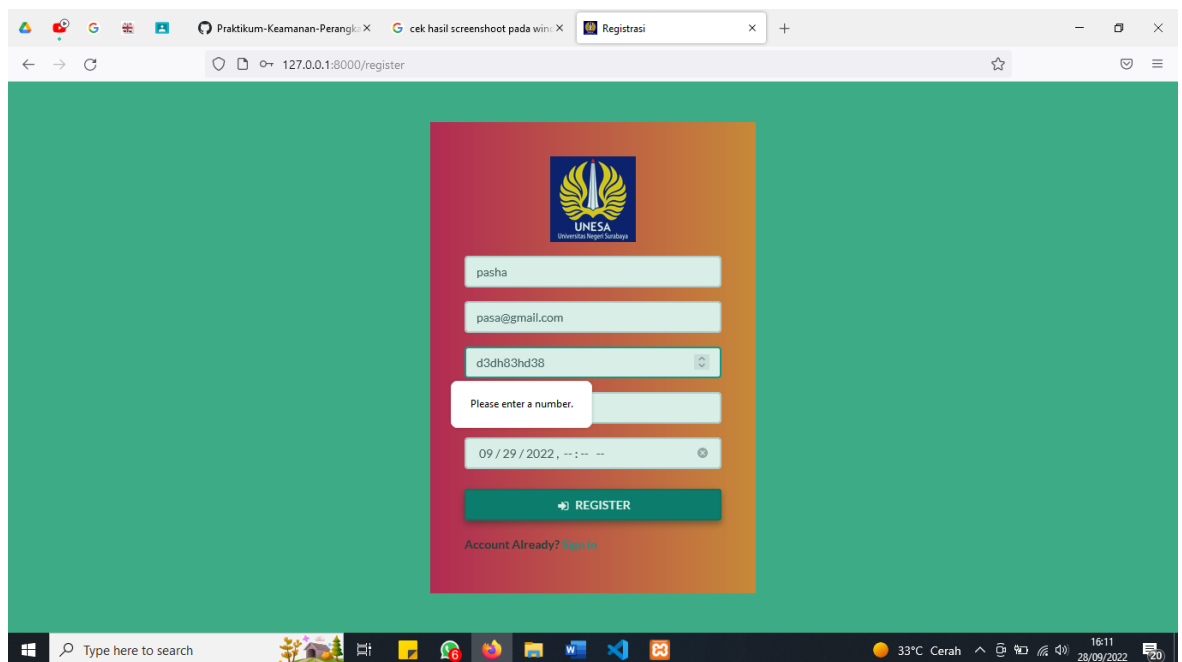

- Username
- Email
- Enter No Hp
- Password
- mm / dd / yyyy, --:-- -- (This field is circled in green)

Below the date field is a teal "REGISTER" button. At the bottom of the form, there is a link that says "Account Already? Sign In".

Validasi Email untuk memastikan email yang dimasukkan valid

Validasi nomor HP

Memastikan form isian angka hanya dapat diisi dengan angka
